

Frank L. Couch, FCSI

"In recognition of your service to the Institute, you are advanced to Fellowship in the Institute, June 1967."

Miami, Florida

FRANK L. COUCH is a resident of Howell and a former member of the Detroit architectural and engineering firm of Smith, Hinchman & Grylls Associates.

Couch has been a member of the Institute since 1953 and a member of the Detroit chapter of the Institute since 1955. He served the chapter as vice-president and president and served the Institute in a number of capacities. From 1955 to 1965 he was associated with Smith, Hinchman & Grylls as head of the firm's specifications department.

He is a registered professional engineer in the State of Kentucky and has served as project engineer on a number of projects including Gaseous Diffusion Plant, AEC, Paducah, Ky.; Detroit Housing Commission, Detroit; Willamette Valley Wood Chemical Co., Eugene, Ore. and as project director and administrator on other projects.

He has authored a number of technical papers dealing with construction problems and techniques.
