

Sheryl Lee Dodd-Hansen, FCSI

*"In recognition of your substantial and continuing commitment to the education of university students and construction industry professionals, and for your distinguished service to the Institute Certification Program, you are advanced to Fellowship in the Institute on the 29th day of June 2002."
Las Vegas, Nevada*

SHERYL DODD-HANSEN is proud to tell people that her ability to contribute to the construction industry in various ways has all hinged on having obtained CSI Certification.

Sheryl's first job after college was as an analyst for the Federal Home Loan Bank of San Francisco where for ten years she evaluated savings and loan associations' applications for branch offices and insurance of accounts. Her involvement in the construction industry was the result of her marriage to an architect who was willing to share his knowledge and encourage her to develop her credentials by taking the architectural licensing exam and the Certified Construction Specifier exam.

Sheryl's significant CSI involvement started when she volunteered to be certification chairman for the Sacramento Chapter in FY93, and subsequently served as West Region Certification Chairman in FY94. In FY97 she was the first woman appointed to the Institute Certification Committee in

its 20-year history and in FY00 was appointed to be Chairman. At that time, she was dubbed "Queen of Certification" by then-Institute President Alana Griffith, FCSI, CCPR. Sheryl continues to be proud to claim that title.

Sheryl enjoys contributing to improvement of training for future CSI leaders and in service on the Institute Board and special projects. She finds it useful to share knowledge she has attained through her participation in a performance clogging group, taichi classes, the American Institute of Parliamentarians, SCIP, and the alumni association of her alma mater, University of the Pacific. Sheryl and her husband, Dane, have worked together as independent specifications consultants since 1991 and were the first married couple to both achieve Fellowship in CSI. They are the proud parents of daughter Kristy, who is Director of Student Outreach and Engagement in the Alumni Department at UCLA.

CSI Membership
