

Lynn A. Javoroski, FCSI

*“For your passionate and exemplary service to the Institute, North Central Region, and especially the Milwaukee Chapter through continuous committee involvement and leadership roles; for your remarkable mentoring of CSI members; for your creative presentations and contributions to the betterment of member recognition, and in the spirit of your “Tangible Rewards for Active Membership” program, you are advanced to Fellowship in the Institute on the 16th day of September 2011.”
Chicago, Illinois*

LYNN JAVOROSKI joined the Milwaukee Chapter in October 1995. After little more than a year, Lynn was asked to serve as secretary. She agreed and was elected the next 2 years. She stepped up to President-Elect after only 2 years on the Board.

In 1998, she passed the CDT exam and realized that writing specifications was the culmination of many years of study and learning.

While Past-President, she was asked to serve as Milwaukee Chapter Region Director, a position that she still holds today. She served a term as Region secretary.

After a Bi-Region Conference, she conceived the Tangible Rewards for Active Membership (TRAM) award, giving every active member a chance to attend a Region conference. The more done for the chapter, the more chances to win the drawing, a trip to the Region Conference.

Lynn became Region Membership Chair and served for 6 years, presenting seminars at Region conferences and at the North Central Region joint conference with CSC national convention in Winnipeg. "Members and Monsters" debuted there, a role-playing membership game involving solving membership challenges. One purpose is to help members

polish their “elevator speeches” and work on their CSI knowledge. Serving as North Central Region Membership chair led to serving on the Institute Membership Committee and eventually serving as Institute Membership Committee Chair.

When the Milwaukee Chapter developed the Education Trust to administer scholarships at the local colleges and universities, Lynn was asked to serve on the Board of Trustees. The Trust not only awards money, but gives each recipient a CSI membership and encourages participation in Chapter, region, and national events.

She served as Milwaukee Chapter Awards Chair and re-established a chapter Awards Guide, with awards named for long-time contributors to the chapter. After serving as Awards Chair, Lynn took on the task of Membership Chair.

She teaches CSI certification classes and mentors young professionals, both in CSI and out. She has taught Intern Architects the MasterFormat04 system of classification. She has presented sessions on specifications and communication both at her places of employment and at a local university, with an emphasis on being clear, concise, complete and correct.

CSI Membership

Milwaukee Chapter, 1995 to present
Madison Chapter, 2009 to present

Institute Offices, Committees

Membership Committee, FY2004-2007
Membership Chair, FY2008
