

# Dale C. Moll, FCSI

*“In recognition of your providing financial expertise in the promotion and implementation of sound fiscal policies and procedures for the Institute, you are advanced to Fellowship in the Institute on this 28th day of June, 1987”  
Detroit, Michigan*

DALE C. MOLL was born in 1923 and was a resident of Hopkins, Minnesota.

Moll began his CSI career as a member of the Minneapolis St. Paul Chapter. His numerous activities included chairing the chapter's Technical Committee, serving as President, Vice President, Secretary/Treasurer, and consulting for the Long Range Planning Committee.

In 1977, Moll's activities took a turn that would mold his Institute career when he served as chairman of the North Central Region's Finance Committee, an office he held again in 1982. During this period, Moll presented several financial workshops for region members.

In 1982 he was assigned to the Institute's Finance Committee and became its chairman in 1985, a position that he held for two years. Following this, he served as Institute treasurer from 1989-1990.

He then broke away from his financial role and served as FY91 Institute Vice-President, confirming his extraordinary abilities to tackle successfully any project. That same year he served as an ex-officio member of the Long-Range Planning

Committee and chairman of the Convention Program Committee.

The latter is where his commitment and knowledge of the quality management process shone. As chairman, Moll was instrumental in developing the Quality Management education track for the 1991 convention. He emphasized that education for total quality is targeted at manufacturing or service organizations and not the construction industry. He quickly realized the niche that CSI could fill by supporting this growing trend in American business.

In 1987 he received a Region Certification and a Chapter First Special Award of Appreciation for Contributions to the Advancement of CSI.

In honor of Dale C. Moll, the Institute Board on June 23, 1992 approved the establishment of the Dale C. Moll Memorial Award. This award is given to an individual whose continued commitment to the implementation, promotion, or enhancement of the Quality Management Process has significantly improved quality in the construction industry.
