

# James Owen Power\*, FCSI

*“In recognition of your distinguished achievements in construction specifications, you are advanced to Fellowship in the Institute on this 27th day of June, 1973”  
Washington, DC*

JAMES OWEN POWER is a resident of Miami, Florida. He attended the University of California.

Power is a registered professional engineer in Florida, Massachusetts and Tennessee and a licensed civil engineer in California. He is also registered as a Fallout Analyst with the Department of Defense.

He has also been active teaching structural engineering; serving on the adjunct faculty of the School of Engineering at the University of Miami, Coral Gables, Florida.

Power is noted for having written specifications for some unusual projects, among them the underwater theater at Weeki Wachee Florida, and the Marine Stadium in Miami.

Power is a member of the Miami Chapter and has served as that chapter's President. He received the Miami Chapter Distinguished Service Award in 1968, and the chapter Technical Excellence Award in 1971.

For the Institute, Power served as a member and later chairman of the Certification Committee.

Power is also a Fellow of the American Society of Civil Engineers. He is a member of the American Concrete Institute, the International Association of Shell Structures, and the Prestressed Concrete Institute.

James passed away in his home Saturday 28 May 2016.
